

TRIBECA INSPIRES

Tribeca is a suite of shower screens created for bathrooms where scale, strength, and design matter. It embraces architectural features and bolder visual style. Tribeca is perfect for interior designs that call for greater scale, luxury, and visual weight.

With sliding, pivot, and fixed panel formats, Tribeca gives interior architects a system equal to the most considered design brief. The sliding door formats include a soft close feature, creating an even more luxurious experience.

CREATE A SANCTUARY WITH TRIBECA:

- A shower screen frame becomes an interior design hero
- Offset slider, inline slider, and T-intersection configurations adapt to a variety of room layouts
- Create custom designs with glazed or face-fixed feature bars
- Soft close mechanism included with the Inline (Tee) slider and Offset Slider formats
- Compliant sill-less options
- Australian design and manufacture
